**Layaway payment solution** is easy to install on Wordpress framework.

Merchants have to perform following Steps:

1. Download “WooCommerce - excelling ecommerce”
2. Install “WooCommerce - excelling ecommerce”
3. Download “PUT IT ON LAYAWAY (powered by PayPal)”
4. Register at <https://lay-buys.com/> as merchant
5. Install “Layaway Payment Gateway Extension for WooCommerce”

## Step 1: Download “PUT IT ON LAYAWAY (powered by PayPal)”

- Download the latest package

## Step 2: Register at [lay-buys.com](https://lay-buys.com/) as merchant

- Sign-up on <https://lay-buys.com/vtmob/register.php>

- Then fill your PayPal credentials (see account page)

The screenshot shows the Virtual Terminal user interface. At the top left is the 'lay-buys virtual terminal secure cloud-based mobile payments' logo. At the top right is a circular logo with a handshake and the text 'VIRTUAL TERMINAL' and 'the virtual payment platform online for buyers and sellers'. Below the logos is a navigation menu on the left with options: 'Enter Sale as the Seller', 'Enter Sale as the Buyer', 'View Payments In', 'View Payments Out', 'Update Your Details', 'Your PayPal Details', 'Change Password', and 'Log Out'. The main content area contains a form with the following fields: 'Member ID' (value: 00000), 'Paypal API Username', 'Paypal API Password', and 'Paypal API Signature'. An 'UPDATE' button is located below the form. Below the form is a text box with instructions: 'Please go into your PayPal account and follow following process: Click on "PROFILE"; then click on "MY SELLING TOOLS" then click on "API ACCESS"; then click on "View API Signature". Then simply copy and paste into the VT section of "Your PayPal Details" the following: API Username, API Password and Signature. (If you do not have a Signature and only a certificate, please contact us)'. At the bottom of the page is a footer with copyright information and links: 'Copyright LAY-BUYS (2011-2012) | Terms & Conditions - Lay-Buy | Terms & Conditions - Escrow | Privacy Policy | Security'.

## Step 3: Installing and Activating “PUT IT ON LAYAWAY (powered by PayPal)”

- Upload plugin folder to your server  
e.g. /public\_html/wp-content/plugins/
- Now go through admin panel and activate the plugin  
Step 1 - Go through menu "Admin >> Plugins",  
Step 2 - Click on [Activate] link under “Layaway Payment Gateway Extension for WooCommerce”,

Akismet

WooCommerce

[Settings](#) | [Docs](#) | [Premium Support](#) | [Deactivate](#) | [Edit](#)

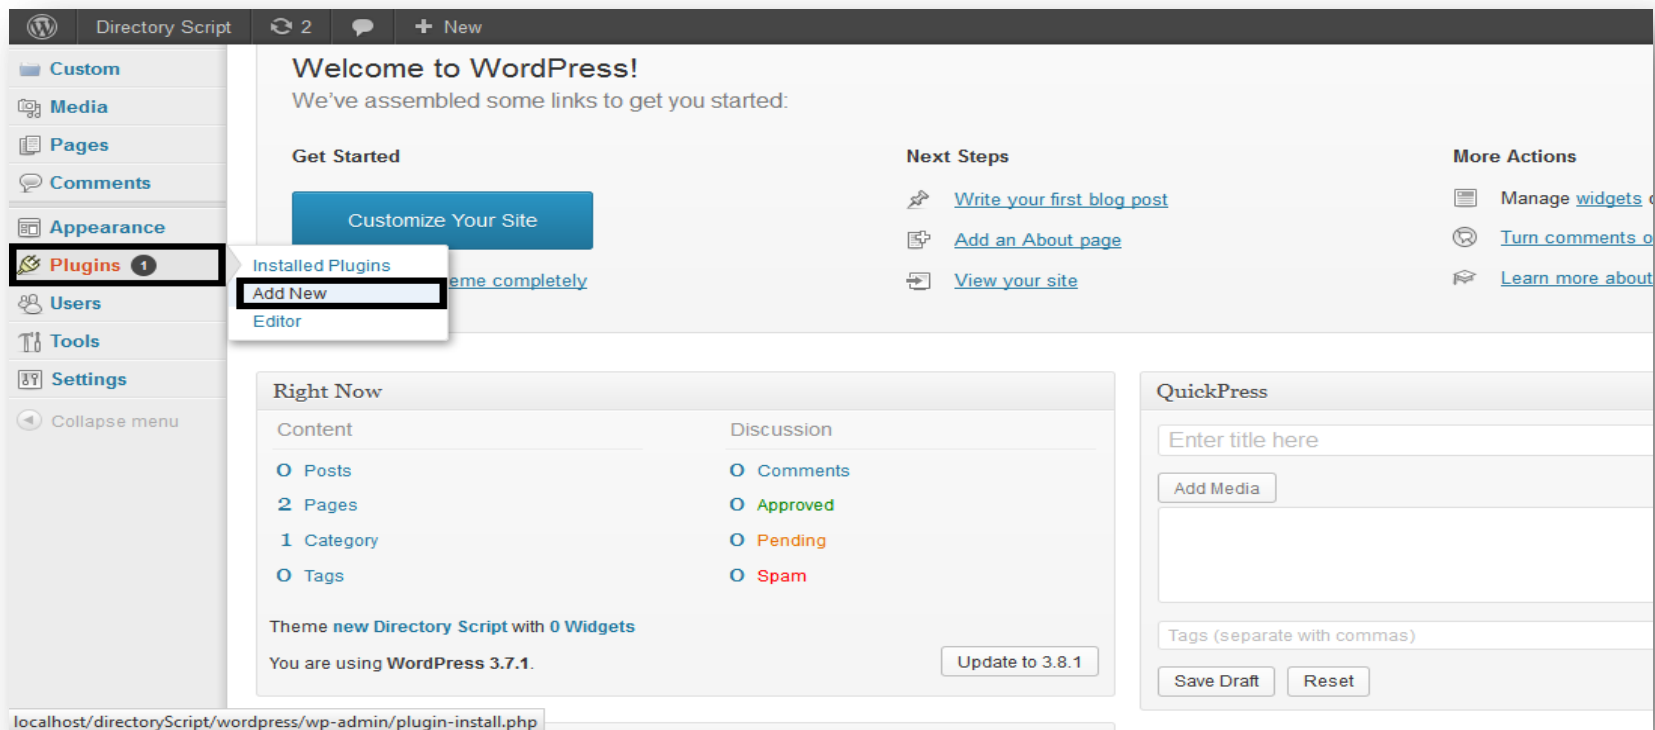

An e-commerce toolkit that helps you sell anything. Beautifully.

Version 2.1.7 | By WooThemes | [Visit plugin site](#)

OR

You can also install the extension as shown below:

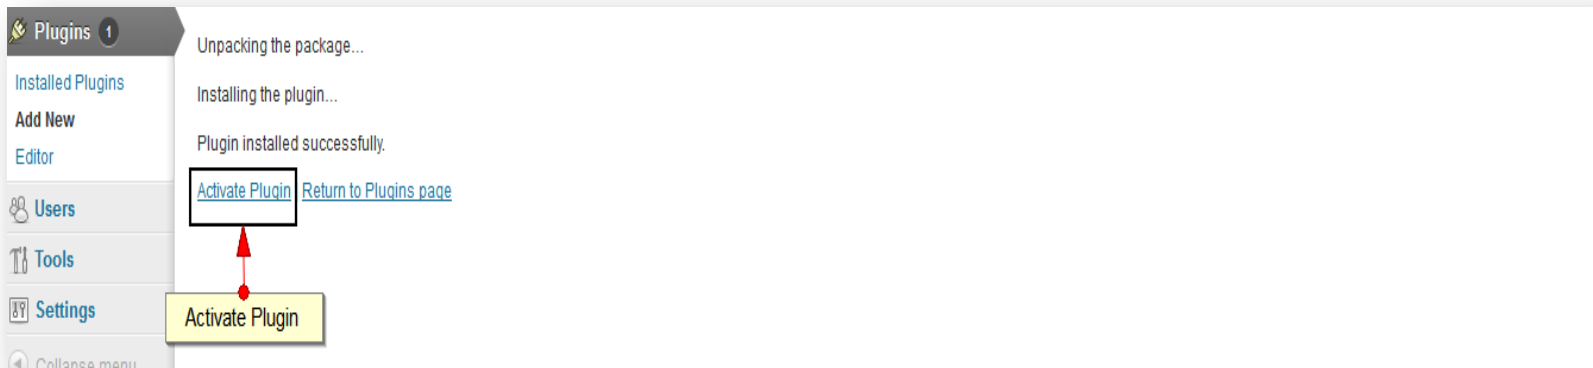

Step 1: Please go to Admin Panel -> Plugins -> Add New

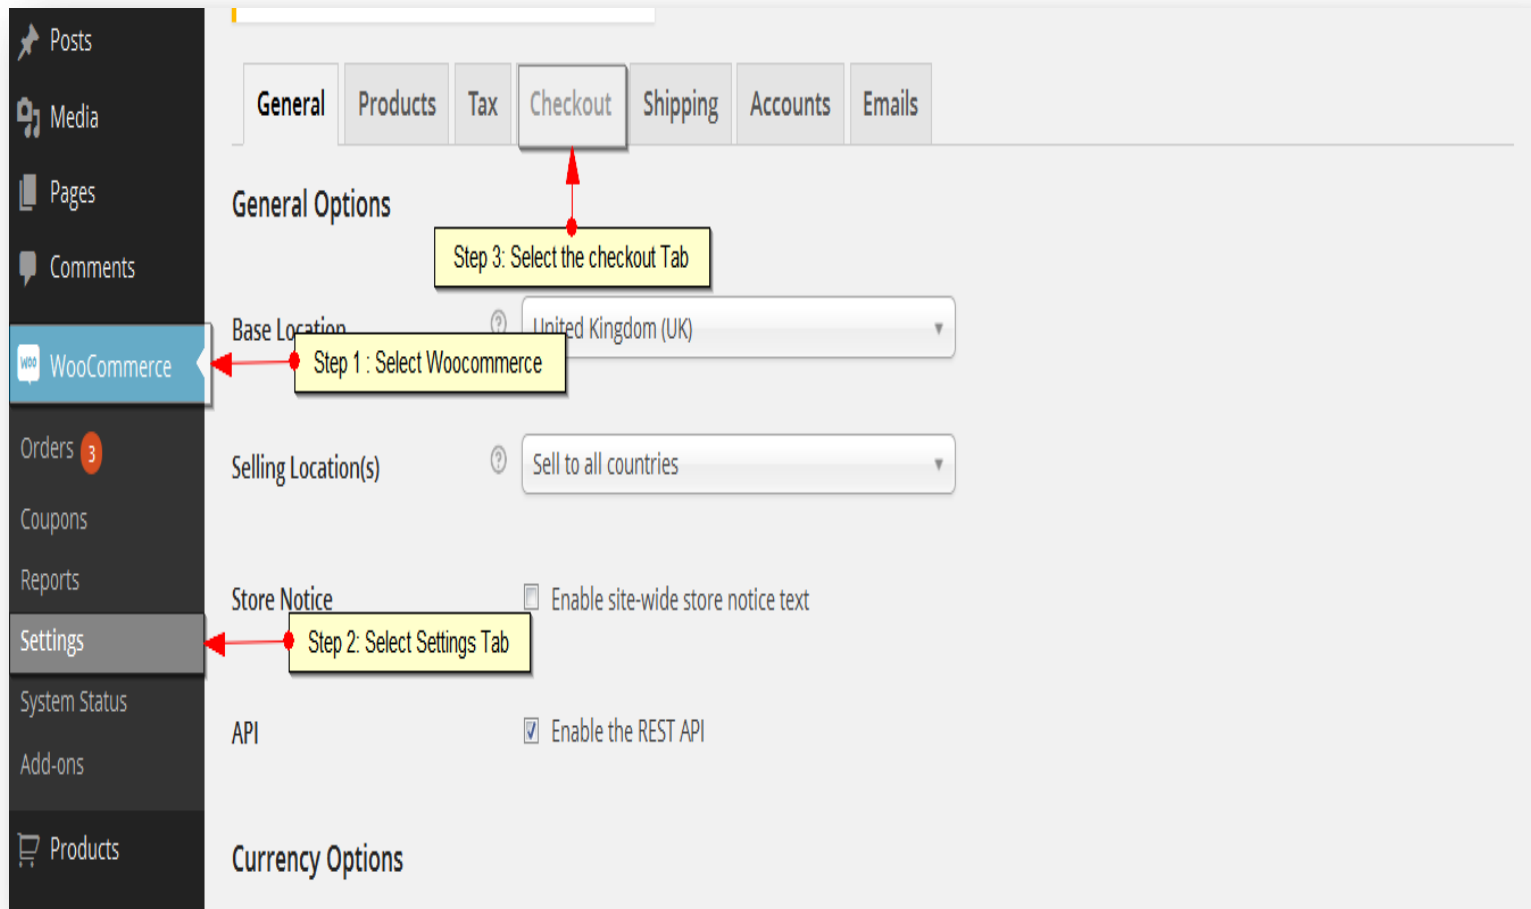

## Step 2: Browse and upload plugin in .zip format

## Step 3: Activate Plugin

For 'General Settings' page: Please go to admin panel -> WooCommerce -> Settings -> Checkout

The screenshot shows the WooCommerce admin interface. On the left is a dark sidebar with navigation items: Posts, Media, Pages, Comments, WooCommerce (highlighted), Orders (with a red badge '3'), Coupons, Layaway Instalment Reports, Reports, Settings, System Status, and Add-ons. The main content area has a top navigation bar with tabs: General, Products, Tax, Checkout (selected), Shipping, Accounts, and Emails. Under the 'Checkout' tab, there is a sub-tab bar with 'Checkout Options', 'BACS', 'Cheque', 'Cash on Delivery', 'Mijireh Checkout', 'PayPal', and 'Layaway' (highlighted). Below this, the 'Checkout Process' section is visible, containing two main sections: 'Coupons' and 'Checkout'. The 'Coupons' section has a checked checkbox for 'Enable the use of coupons' and a note: 'Coupons can be applied from the cart and checkout pages.' The 'Checkout' section has a checked checkbox for 'Enable guest checkout' with a note: 'Allows customers to checkout without creating an account.', and an unchecked checkbox for 'Force secure checkout' with a note: 'Force SSL (HTTPS) on the checkout pages (an SSL Certificate is required).' A yellow callout box with a red arrow points to the 'Layaway' link in the sub-tab bar, containing the text: 'Select Layaway to go to the settings page'.

### Settings page for Layaway:

**Layaway standard**

Layaway is an affordable payment plan option that allows you to pay-off a product or service via one down payment, with the instalments. Your purchase is delivered to you after the final instalment payment is completed. A 0.9% admin fee is payable t

- **Cron URL for fetching updates** the cron job for fetching updates can be set using this URL

#### At Checkout Page in Front-end:

#### Payment Method Step

Layaway Payment method appears on checkout page when a buyer checkout the order.

When a customer choose “PUT IT LAYAWAY powered by PayPal” payment method as their payment option in payment step under checkout page, then customer have to choose the instalment plan for his/her payment by choosing some down payment percentage and choose months for creating instalment payment for 1,2 or 3 months at “Confirm Order” step.

Step 1: Fill in all the billing details:

The screenshot shows the 'Checkout' page with a coupon field and a 'Ship to billing address?' checkbox. The main form is divided into 'Billing Address' and 'Shipping Address' sections. The 'Billing Address' section includes fields for Country (United States), First Name (test), Last Name (test), Company Name (Cedcoss technologies), Address (123 my street), Town / City (my city), State (California), and Zip (91086). The 'Shipping Address' section includes an 'Order Notes' field. A yellow callout box with a red arrow points to the 'Billing Address' section, containing the text: 'Step 1: Fill the billing information for WooCommerce records'.

#### Step 2: Select “PUT IN ON LAYAWAY powered by PayPal”

The screenshot shows the payment gateway interface for Layaway powered by PayPal. It includes a list of payment options, a description of the Layaway plan, a selection of instalment plan details, a payment schedule table, and a 'PLACE ORDER' button. Five numbered callouts highlight key steps: 1. Select Payment Option (pointing to the selected option), 2. Select Initial payment percentage (pointing to the 20% dropdown), 3. Select months to pay (pointing to the 3 months dropdown), 4. Review Payment Plan (pointing to the table), and 5. Click to place order (pointing to the button).

Cheque Payment

PayPal

PUT IT ON LAYAWAY powered by PayPal

**PUT IT ON LAYAWAY**  
powered by

Laybuy is an affordable payment plan option that allows you to pay-off a product or service via one down payment, with the balance paid over 1, 2 or 3 monthly instalments. Your purchase is delivered to you after the final instalment payment is completed. A 0.9% admin fee is payable to Laybuy.

Please select the instalment plan:

Initial Payment:  Months To Pay:

PAYMENT	DUE DATE	AMOUNT
Down Payment	Today	£9.00
1	May 15, 2014	£12.00
2	Jun 15, 2014	£12.00
3	Jul 15, 2014	£12.00

Your goods/services will be delivered once your final payment has been received

**PLACE ORDER**

Here customer can choose any plan for payment by choosing Initial Down payment percentage and Months for next instalments.

After reviewing a plan user can place order by clicking on “Place Order”.

This button places the order on WooCommerce and then redirect to PayPal for payment .

Instead of paying all the amount (grand total of order), customer have to pay the down payment amount and then a recurring profile is created on PayPal for next payments.

On successful payment a success page will appeared at WooCommerce website by showing success information and on failure order will not be placed and show ‘My Account’ page for retry.

## 4. Layaway Instalment Reports

**Layaway Instalment Reports** are the transaction reports which contain all the information related to Layaway detail, PayPal transaction detail, customer detail, order detail and instalment detail. When a customer choose Layaway payment option as their payment method in payment step under checkout page, then customer have to choose the instalment plan for his/her payment by paying some down payment and create instalment payment for 1,2 or 3 months.

So every transaction will be stored in WooCommerce website and can be managed form a panel called “Layaway Instalment Reports”.

Please go to admin panel -> WooCommerce -> Layaway Instalment Reports

**Layaway Instalment Reports**

Set the number of rows to be shown per page

Click to reset filters

Filters : Input the value for fetching respective data

Created At	Order	Amount	Down Payment %	Months	Down Payment Amount	Payment Amount	First Payment Due	Last Payment Due	Status
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	Select
May 08, 2014	<a href="#">Order #26</a>	£45.00	30%	3	£13.50	£10.50	Jun 08, 2014	Aug 08, 2014	Pending
Apr 29, 2014	<a href="#">Order #22</a>	£90.00	20%	3	£18.00	£24.00	May 29, 2014	Jul 29, 2014	Pending

Listing all the Layaway Transactions

### Column-wise description:

- **Created At** is a date field that stores that date when transaction was created.
- **Order** is the order id related to the transaction.
- **Amount** is the grand total of order.
- **Down Payment %** is the percentage of down payment.
- **Months** is the total no of instalment cycles.
- **Downpayment Amount** is the down payment amount (calculated from down payment %) paid at time of order placing.
- **Payment Amounts** is the next instalments amount.
- **First Payment Due** is the date of first payment.
- **Last Payment Due** is the date of last payment.
- **Status** is the status of transaction. It may be Pending/Completed/Cancelled/Revised Request/Revised

When a transaction have pending instalments then its status will be “Pending” , if transaction have no pending instalments means all instalments have been paid then its status will be “Completed”. If transaction is cancelled due to some reason then its status will be “Canceled”.

Admin can revise the instalment scheme by sending a request mail to buyers, so when a transaction is just requested then its status will be “Revise Requested” when buyers accept and process the transaction then its old transaction get a status that is “Revised” and a new transaction row will appear for same order with a status “Completed/Pending”.

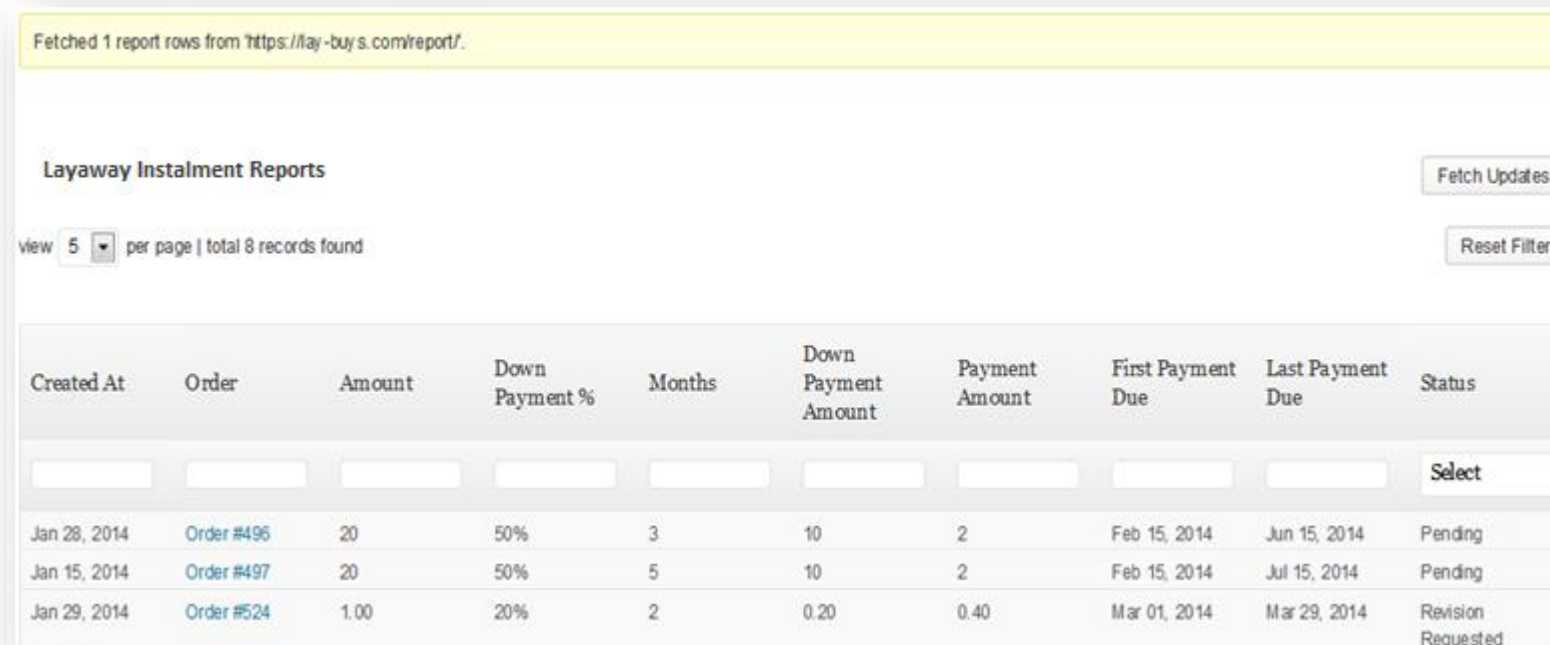

Detailed explanation about Status is done in next topics.

**Fetch Updates** is the functionality for fetching the latest report of instalments from <http://lay-buys.com>.

At “Layaway Instalment Reports” panel, there is a button at top-right corner named as “Fetch Updates”.

Fetch Updated send a request for all transactions which have Pending status.

On success a ‘success message’ appears with count of total rows fetched in message area as:

Fetched 1 report rows from 'https://lay-buys.com/report/.'

Email: upasnaupreti@cedcoss.com

Save transaction and send email to notify user about changed plan

Select new downpayment percent

Select number of months for insatlments

**Note:** Only a Pending Transaction can be revised.

The Revise form contains the some information as editable and some of them read-only. Like, Reference Information doesn't need to be edited so such fields are read-only and are used for reference on revising process.

**Total Amount** is the amount available for revising process, generally it is calculated by formula

Total Amount = Grand Total of order – Total Paid Amounts

Where, Total Paid Amounts = Down Payment + (no of completed instalment \* Payment Amounts)

**Payment Type** is the method of next payment. It may be Lay-Buy or Buy-Now.

- **Lay-Buy:** It create a new recurring profile for balance amounts. And cancel the current profile.
- **Buy-Now:** It's the method of paying all the balance amount at one time without any instalment plan. So when customer want to pay all the balance amount in one time then admin can choose this method for current customer.

**Initial Payment\*** is the down payment percentage for new plan.

**Months to Pay \*** is the no of instalment cycles for new plan.

**Preview\*** is the preview of your plan depend upon Initial Payment and Months to Pay fields.

**Email (*read only*)** is the email of customer. It must be same throughout WooCommerce, Lay-Buys and PayPal. And it is an important key for identifying the customer's data on Lay-Buys and PayPal so it can't be changed from here.

\*visible on "Lay-Buy" option, if "Buy-Now" is selected these fields get disappeared because Buy-Now is onetime payment method so there is no need of instalment information.

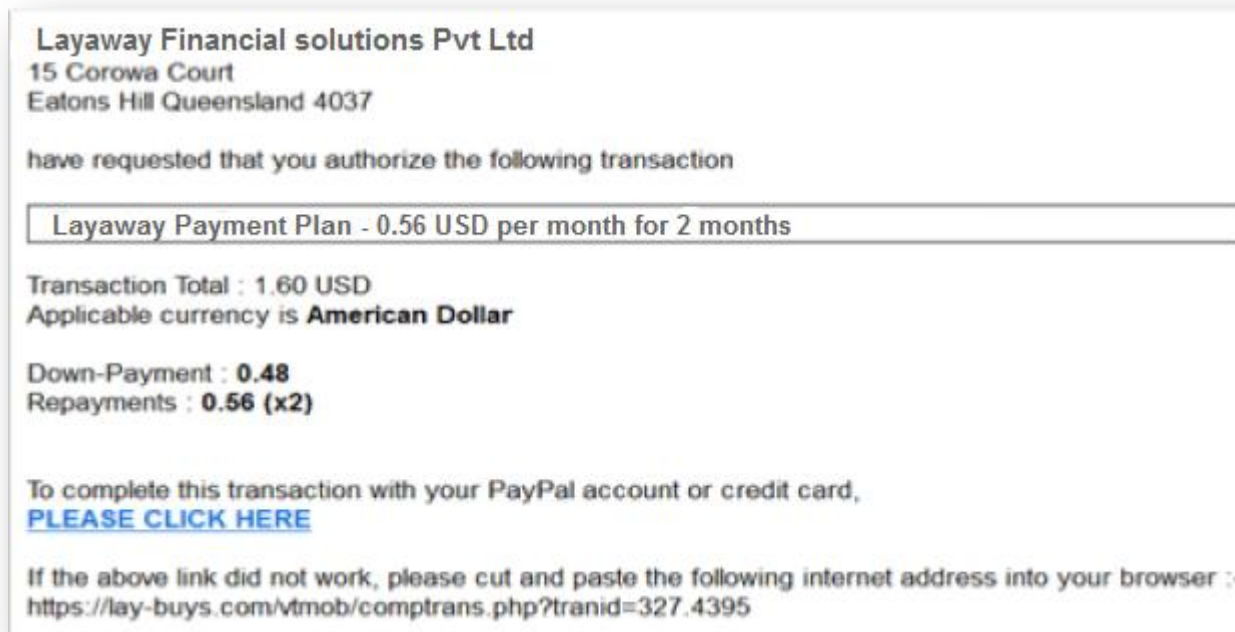

After choosing new plan click on “Save and Send Email to Buyer” button for submitting the request and send a mail to customer. Also current transaction status becomes “Revise Requested”. After success a message will appear with message “Request has been saved and email was sent to <customer\_email> for order #<order\_id>”.

According to “Payment-Type” the process of revision will work.

### Progress for “Lay-Buy” Method:

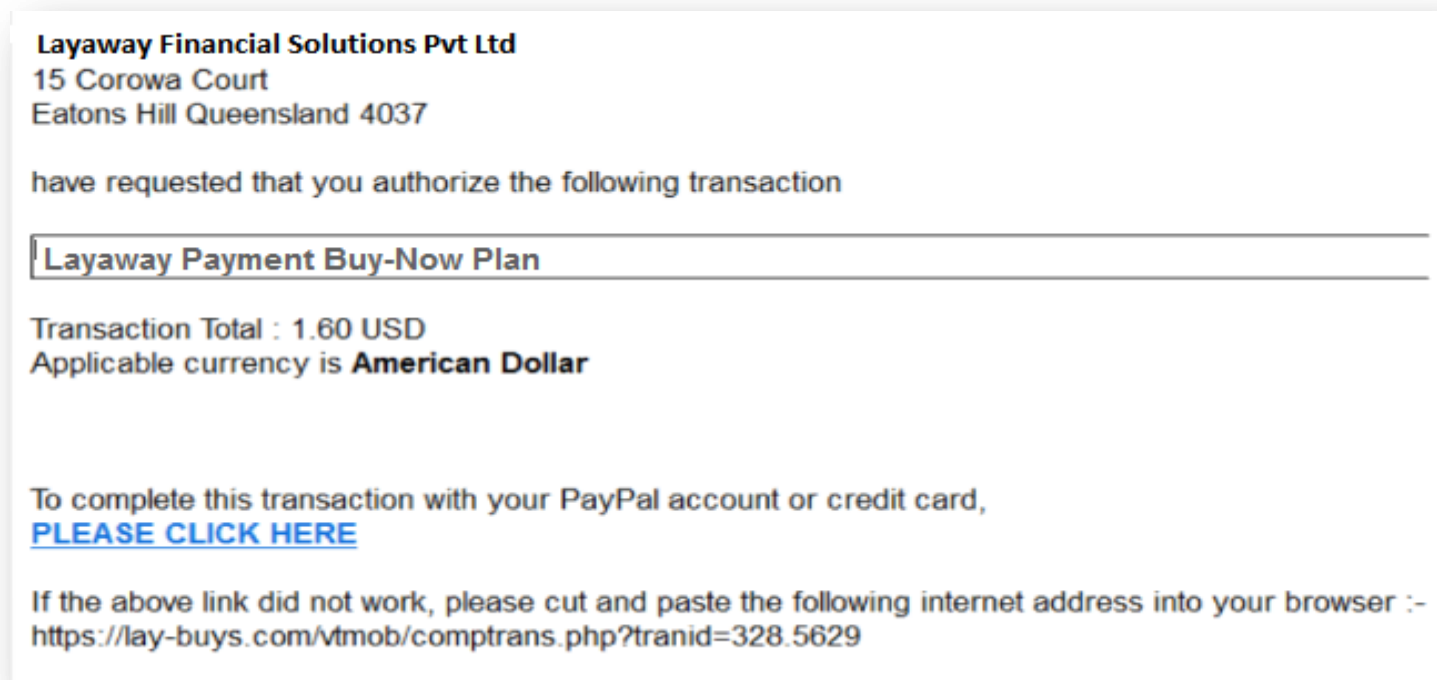

- **Email Structure:** see example format

In mail content there will be a link for accepting revise request and pay the new down payment from PayPal. When customers click on the link they will be redirected to PayPal to complete the transaction. After success customer redirect to WooCommerce “My Account Page” and a new transaction row will be added to transaction table with Status “Pending” .

### Progress for “Buy-Now” Method:

➤ **Email Structure:** see example format

**Layaway Financial Solutions Pvt Ltd**  
15 Corowa Court  
Eatons Hill Queensland 4037

have requested that you authorize the following transaction

---

**Layaway Payment Buy-Now Plan**

---

There are five kind of transaction statuses as:

1. Pending,
2. Completed,
3. Cancelled,
4. Revise Requested, and
5. Revised.

**Pending** when there is at least one instalment is pending or revise by Layaway method.

**Completed** when all the instalment get paid or revise by Buy-Now method.

**Cancelled** when instalment is not paid at right time or manually canceled by admin as “Cancel Transaction”.

**Revision Requested** when a transaction gets just revised not completed by customer.

**Revised** when customer responds for Revise Request transaction then old transaction becomes “Revised”.

# Thank you!
